On the Anniversary of America's Entry Into the World War

April 6 marked the 16th anniversary of the entrance of American imperialism, headed by Woodrow Wilson, into the slaughter of the World War. Tens of millions of corpses, millions maimed, mangled and crippled-these were the fruits of the war. The toilers of the world, the toilers of the U.S.A., the farmers and workers spilled their blood on the battlefields. What did the American toilers gain from the "war to end war," from the war "to make the world safe for democracy"?

The present crisis, with its suffering and misery, is the answer. Today, sixteen years after the entrance of the United States into the World War, 17 million workers are without jobs, starving on the streets of the richest country in

Factories are closing down every day. Millions are working part-time at hunger wages. Hundreds of thousands of hameless American youths are wandering over America. Everywhere families are breaking up. Evictions are a daily occurrence. Thousands upon thousands of workers have lost their life savings.

The farmers, crushed by mortgages and debts, are being driven from the land. The farmers starve-because there is too much wheat! The workers starve-because there is too much goods!

The Roosevelt government, elected on a demagogic platform of promises of immediate relief and unemployment insurance, is carrying through an even more ruthless antiworking class program than the Hoover administration.

Today the capitalist class instead of feeding the starving millions is burning and destroying the "excess" supplies of food. Tomorrow they will be burning millions of living human beings in the furnace of imperialist war.

The official war budget for the United States, England, France, Japan, and Italy, for the year 1930-31, equalled \$2,873,000,000. This is three times greater than the war

Britain is attempting to disrupt its diplomatic relations with the Soviet Union. A large number of bombing planes are concentrated in the air ports of Bagdad. A military highroad is being constructed in Persia directly to the borders

of the Soviet Union. These preparations mean WAR!

The first skirmishes of the coming imperialist slaughter have already broken out.

In South America thousands of workers are being butchered in the "unofficial" war between Bolivia and Paraguay. Behind Bolivia stands the United States. Behind Paraguay stands British imperialism.

In China, Japan presses on over the Great Wall, while the Nanking Government sends white armies against the

The war atmosphere is tense. The conflict between American imperialism and Japan, between the United States and British imperialism, is growing sharper every day.

The United States still refuse to recognize the Soviet Union. It is arming its imperialist rival, is driving Japan towards provocative acts against the Soviet Union. American imperialism is greedy for power in the Pacific and the Far East. Its strategy is to weaken both the Soviet Union and Japan by letting Japan exhaust itself in an anti-Soviet

Mussolini and MacDonald are attempting to organize a four-power pact with the aim of crushing Communism. Hitler's coming to power means the concentration of the most reactionary jingoistic forces of Germany. The German fascist leaders call for war against the Soviet Union. The entire imperialist world seeks to solve the present crisis thru war, and particularly war upon the Soviet Union.

The League of Nations is a weapon of British and French imperialism in its war acts. The League did nothing to stop the rape of Manchuria or the massacre at Chapei. The League of Nations took a leading role in the anti-Soviet dumping campaign. The League has rejected all the disarmament proposals of the Soviet Union.

Today the toilers all over the world must rally and resist the capitalist offensive, must unite in the struggle against capitalist oppression and terror, must unite in the struggle against German fascism which is raising its head as the gendarme of the imperialists in Europe.

We must struggle to stay the hand of the Japanese bandits, to be ready to stay the hand of U.S. imperialism and turn the imperialist war of the bosses into a class war of workers against the imperialists. At this moment all our energies must be directed towards the stopping of the war in the Far East. We must stop the shipment of ammunition

We must rally to the defense of the Soviet Union. We must increase our struggle against fascism, in defense of the German proletariat, which fascism tries to bind with Junker and Kaiserist chains.

Toilers of the United States!

Build the united front in all places of work; the united front of the unemployed and the employed.

Socialist workers! Workers of the American Federation of Labor! Members of workers' organizations! Join hands with us to defeat the new offensive against the already impossible standard of living. Join hands in the struggle against the present wars in China and Latin America, against the coming world imperialist butchery.

For the defense of the Chinese people and the Soviet Union. Stop the shipment of ammunition. Set up anti-war committees in every shop, neighborhood and workers' organization. Down with fascism. Rally in defense of the German workers from the bloody fascist reaction.

Forward along the road of struggle that will wipe out capitalism, the breeder of starvation and war.

Film Describes Conditions of Unemployed in Germany

A screen dramatization of the conditions of the unemployed in Germany, "Ruhle Wampe", will have its American premier at the Cameo theatre on April 15. Bert Brecht, who wrote the story, as well as the words to the revolu tionary song introduced at the climax, and Hanns Eisler, who composed the musical score, are now in jail as a result of their party affiliations. Together with Slatan Dudov, he director of "Kuhle Wampe", they lave waged many bitter fights with the German censorship before and during the filming of this picture. In fact, more often than not, censorship has been the flattering reception of

When about half finished, the sound monopoly (of which Hugenberg is the head) objected to "Kuhle Wampe" on the grounds that it contained a political attack. They refused to permit their equipment to be used to complete the picture. This meant that much of the money which would have gone into the production had to be spent in lawsuits.

Eventually completed, "Kuhle Wampe" then met with the opposition of the official censorship. At this point, Brecht and Dudov organized a storm of protest from workers, so that the film was finally released, and, in spite of its many cuts, became the most talked-about film in Berlin. Later it attracted large audiences and favorable comment in London.

Can United Action be Achieved in the Fight to Free Tom Mooney?

MOONEY WIRE OF MARCH 28, 1933 TO THE SOCIALIST PARTY

"As result of militant campaign I have won new trial which is greatest victory in my case stop I call upon you to exert every effort to have unaffiliated organizations join the United Front Congress which convenes during my trial stop Strongly urge Socialist Party to join United Front because as Socialists they must realize that only by standing together at this critical time can final freedom be achieved.

(Signed) TOM MOONEY."

By C. A. HATHAWAY

The Executive Committee of the Socialist Party has, so far, stubbornly refused to join with other labor forces in a joint fight to secure the release of Tom Mooney and other class war prisoners. This fact is bluntly stated in the New Leader of April 1. In an official Party statement, signed by the National Chairman of the Party, Mayor Daniel W. Hoan of Milwaukee, Clarence Senior, the national secretary, and Louis Krzycki and Powers Hapgood, members of the national committee, the following is stated:

"... the organization committee, ACTING UNDER AUTHORI-EATION OF THE NATIONAL EXECUTIVE COMMITTEE of the Socialist Party, deems it INADVISABLE for the Party or its subdivisions to take part in the Chicago congress" (the "Free Tom Mooney Congress" called to meet in Chicago, April 29th-May 2nd.

Socialist Party Executive Responsible.

This fixes the responsibility on the Socialist Party executive for the continued division in the workers' ranks at a time when the most solid fighting front is needed. It is in line with their persistent refusal to enter into a joint struggle against fascist terror which is daily taking the lives and freedom of hundreds of German workers-Communist and Social Democratic alike. It is in line with their refusal to enter into united action against Roosevelt's new attacks on the workers' living standards, and into united demonstrations on May First. The Socialist Party executive seems willing to assume the serious responsibility for splitting the workers' ranks.

They try to conceal their refusal behind a false, bombastic statement, which by its very tone proves the insincerity of those who drafted it. For instance, in a subhead over the signed statement, probably concocted by the brilliant Mr. Oneal, we have the absolutely false assertion, "United Fronters' Denounced by Mooney", implying that Mooney has repudiated those he had assigned to organize the Chicago conference. In the body of the official statement we find the following equally false and stupid statement: "Scott, his (Mooney's-C.A.H.) chief representative, stands branded by Mooney's own letter as a person not to be trusted in charge of a united front congress", again implying that Mooney has somehow or other repudiated the one person he designated to take the principle lead in organizing the Chicago conference. Such false statements reflect in themselves the hysteria within the socialist leadership under the pressure of the demand of their own members for united action. We leave it to Louis B. Scott

The Socialist Party, Which Until Now Has Obstructed Joint Action, Must Answer to the Workers

and Tom Mooney to answer properly.

Slanderous Attacks on Communist Party.

We want to devote ourselves to equally false statements pertaining to the Communist Party. The opening paragraph of the New Leader story states the following:

"Preliminary activities of leaders of the proposed congress have convinced the Socialist Party that Mooney himself will have little control over the gathering, but the Communists will use it as a tool in their campaign to wreck other working class organizations."

We know, to begin with, that it does not require much to convince established oponents of united action, that there should be no united action. We know also that they will inevitably try to find some plausible excuse for their splitting tactics. We would also suggest, that the Socialist Party, which has always been the stumbling block to effective joint struggle in the workers' interests, hardly has a case against the Communist Party, which alone has consistently urged and organized united struggles for the workers' needs. One can point to one or another mistake that we have made, but not a single case can be pointed out when we have failed to strive for working-class unity.

Mooney's Voice Decisive.

But directly to the point. "Mooney himself", they state, "will have little control over the gathering". This is not in accord with the facts. As the socialist executive very well knows and as everybody else knows who has had any contact with the Mooney case, Tom Mooney, from his prison cell, has retained complete control over every aspect of his case for the more than 16 years of his imprisonment. Tom Mooney has retained his own defense committee, answerable only to himself, during this entire time. He decided on the Chicago conference. He drafted the call, laying down himself the purposes of the congress, the manner in which it was to be organized, the terms for the united action of the various groups, and the program for the congress itself.

Furthermore, Mooney sent out his own personal representatives-all of them free from affiliation to any political organization-to carry out his wishes. The socialist executive have falsely charged that Scott, Mooney's eastern representative, was a Communist. This is not true. If he discussed questions with us, it was only because the Communist Party has continuously and actively fought for the release of Mooney, and because we immediately agreed to give full and unconditional support to the Chicago congress in accordance with the line laid down in Tom Mooney's

Finally, we happen to know, and the socialist leaders also know, that every question of policy, every disputed point, has to be referred directly to Tom Mooney by letter or telegram for settlement. This fact, so rigidly adhered

NEW YORK.—The following telegram from Heywood Broun was received Thursday by the Daily Worker:

"To the Editor: Speaking for myself as an individual in the Socialist Party I think that all radical groups in America should be able to get together in presenting the united front upon the Mooney question, the Scottsboro trial and Hitlerism. There are other matters in which they might all work together to advantage but this would do for a start.—(Signed) HEYWOOD BROUN.

to by Scott, has even hampered the work, because replies to letters and telegrams were frequently held up by prison regulations (waiting for visiting days, limited correspondence, etc.). All of this effectively refutes the first weak excuse of the S. P. executive, about Tom's lack of personal

Facts Refute Wrecking Charge.

The second point: "... the Communists will use it (the congress-C.A.H.) as a tool in their campaign to wreck other working class organizations". The Socialist Party is on the road toward wrecking itself, with no assistance from the Communists necessary, through its persistent refusal to join in united action on the basis of a truly working class policy. The questions that will determine the life of the various organizations are the honesty, sincerity and determination with which they rally the masses for resistance to the bosses' efforts to destroy their political rights and lower their living standards. And on this score, the gentlemen of the Socialist Executive Committee, have a record which is not so good; it does not qualify them of all people, to pass judgement on the Communists.

But we Communists in more effectively answer this slanderous nonsense about our alleged desire "to wreck other working class organizations". We will refer only to the Mooney congress and to our proposals. We wanted, and still want united action in 'he struggle to free Tom Mooney. We know that freedom for Tom Mooney, won through determined working class struggle, will not only restore Tom to the workers' front ranks, but such a victory would inspire the millions of workers to more determined action against American capitalism. For these reasons we want the release of Mooney, and we know it can only be achieved thru

Remove Issue of "Communist Control."

We were therefore much concerned about the hindrances put in the way by the Socialist Party. When we were informed that they were making alleged "Communist control" their chief excuse, we decided immediately to remove this as an issue. We decided to prevent them from using this as an excuse any longer, and to force them to come out in the open with a yes or no answer and an open explanation to the workers.

We decided to consult with other groups who had clearly indicated their desire to achieve united action in the fight to free Mooney. After consultation, started on Communist initiative, with A. J. Muste of the C. P. L. A. and Frank Palmer of the Federated Press and through them with Norman Thomas, we agreed to wire Tom Mooney asking him to set up a joint management committee made up of representatives of all groups. Norman Thomas agreed to write his fellow executive members asking them to favorably consider these proposals if they were accepted by Tom Mooney. This occurred on March 29. On that date the telegram was sent to Tom. On March 31 we received the following reply which indicates both the original proposals and Tom's counter-proposals:

"Agree appointment congress management committee suggest two Communist Party, two Socialist Party, one International Labor Defense, one League for Industrial Democracy, one Conference for Progressive Labor Action, five trade unionists, three liberals (this was our proposal—C.A.H.) and two Moulders Defense Committee (reflecting Tom's desire to have his own voice heard in the committee—C.A.H.). This proportion need not rigidly be followed. However before management committee finalized wire full personnel for my confirmation (further evidence of Tom's determination to have his way!-C.A.H.). Similar wire sent Scott Chicago. Immediately inform Palmer and Baldwin .-- TOM MOONEY."

This proposal of the Communists, confirmed by Mooney himself, provides for a management committee of 17 mem-

"To the advance of Hitlerism in Germany and the atrocities committed by that regime the workers everywhere must reply with gigantic protests. We give our support to all such demonstrations.

"Those who fail to join in efforts to achieve genuine unity at such a time as this are traitors to the working class."

From the statement of the Conference for Progressive Labor Action to the Madison Square Garden mass meeting against German fascism, held April 5, 1938.

bers, of which the maximum possible number of Communists would be three.

Who Are the "Wreckers"?

While the Socialist Party was apparently trying to sabotage the congress, the Communist Party, which is slanderously charged by the socialist executive with desiring to "wreck other working class organizations", came forward with sincere, constructive proposals which effectively refute their false charges. They tried to kill the congress on the grounds that we would control it; we reply with a proposal which does away with all possibilities of such control, and thereby also with any possibility, assuming even that we had such stupid intentions, of wrecking any other organizations. The test of one's sincerity can always be found in one's deeds; our proposal for a committee of 17 with only three Communists is our refutation of their second slander-

The Socialist Party executive was notified of these proposals first on March 29; they were again informed by telegram of the content of Tom Mooney's wire of the 31st. As yet they have not changed the stand as reported in the last New Leader of April 1. They still stand, publically at least, in open opposition to a united drive to free Tom Mooney. They still try to hide behind false statements charging "No control by Mooney" and "Communist control"statements that are refuted by the facts brought forward in

The Masses Must Insist on United Action.

We have been patient, giving them every opportunity to change their position. We have waited 11 days-from March 29 until today, April 8. We might remind the socialist leaders that this is more time than they gave Tom Mooney to reply to their communications before they issued their public condemnation of the congress, although he is in jail and hampered by prison regulations. A new issue of the New Leader has appeared, containing no correction of the previous slanderous statements, and above all no expression of a willingness to support the Mooney congress. Their rejection of united action has been further shown during the past week by their refusal to enter into a struggle against fascism.

We, therefore, make these facts—the proposals for the Mooney congress - public in the most restrained manner possible, considering the viciousness of their attacks in recent issues of the New Leader. We leave it to the workers to fix the responsibility for the delay in establishing one militant, working-class, fighting front. As for the Communists, we stand ready and anxious for effective united action-for the freedom of Mooney, and for struggle for every need of the

The masses generally, and the workers' organizations in particular, can speed up this effort to weld together the workers' now scattered forces by uniting for struggle in every locality, by giving united local support to the Mooney congress, and by sending letters of protest and resolutions to the Socialist Party and to the workers' press demanding a stop to these sabotaging activities of the Socialist Party executive committee. United action will be achieved only upon the determined insistence of the masses.

Scores Vital Point

Taking advantage of this opportunity, Defense Attorney Leibowits scored another vital point for the defense when, on re-questioning Ruby Bates, he brought out the fact that the small pearl pen-knife which the train whouth itmflabo i..... p m, ldk prosecution claims was taken on the train from the girls by one of the Scottsboro boys and found on him, actually belonged to Victoria Price, who turned it over to Deputy Sheriff Wann at the time of her arrest.

The desperation of the prosecution is further seen in a last-minute decision made today changing the charge of "rape" to "conspiracy to assault" in the case of three of the Scottsboro boys. This new strategy was evolved by the prosecution after the testimony of Ruby Bates had smashed the case of the state to pieces. Imperialist War of 1914-1918 Paved Way for Present World Capitalist Crisis of Hunger, Fascism and War

A. F. of L. OFFICIALS A Will a War PART OF WAR MACHINE

Participate in Campaign of Slander Against Recognition of Soviet Union

On the 16th anniversary of the entrance of the United States inworld conflict imminent, we may well ask the question again, where will the officials of the 2 million organized workers of the American Federation of Labor stand in the next war? Their record in the last World War is well known. Even before the declaration of war the A. F. of L. officials were conspiring secretly with the govern-ment over plans for mobilizing the working class for this slaughter. Samuel Gompers was appointed a member of the Council of National Defense together with Rockefel-ler and other capitalists as early as

Several weeks before war was officially declared he had called a conference of labor officials thruout the country for the purpose of pledging their loyalty and support during the war. They promised to uphold the "standards of liberty and the safety and preservation of the institutions and ideals of the

GREEN HELPS PREPARE

Speaking before the War Policies Commission in 1931, Mr. Green, president of the A. F. of L. decerned with the successful outcome of the next war. Secretary of War (of the Hoover cabinet) asked him the following question: Your organization has no ob-

tion whatever to an attempt to the economic burdens of war, is to make them fall more on the various classes or cus clements of our citizenship. we would not object to that. In fact dy. First of all I might say that the American working people very strongly favor the settlement of disputes among nations on the basis peace and understanding. At same time we believe in folsense. We know the weakhesses of human nature and of states and of nations and for that reacon as a matter of precaution we feel that a study should be made of the best plans that would be adopted so that we could adequately protect the Nation in the event of an emergency."

From these utterances there can be no mistake about the policy of towards imperialist war. While they may pretend to profess pacifistic beliefs, they are openly part of the war machine of the American capitalist class. It is this policy which prompted Matthew Woll, vice president of the A.F. of L. to state in an address before the Army War College that "the A. F. of L. has only It is ever willing to co-operate with it any way it can." By the same policy, the A. F. of L. has favored high pay for army officers and the development of citizens' military training camps. Declaring

their full support of this "patriotic movement," the whole Executive Council of the A. F. of L. turned out to review a citizens' training corps at Plattsburg several years ago. War department officials decorate the platforms of every A. F. of L. convention and deliver speeches to the officials reminding them of their duty to Wall Street A. F. OF L. AGAINST

about "forced labor" in the U. S. S. R. designed to enforce an official trade embargo on the Soviet Union was actively supported by A. F. of L. leaders who participate in putting over forced labor in the United States. These officials are actively campaigning against recognition of the U.S. S. R. Their silence in the face of the wars in Latin America and China in which the lives of tens of thousands of workers are being sacrificed to the greed and exploitation of the imperialist powers, merely implicates them the more in the bloody slaughter. The creation of the Pan American Federation of Labor and its close affiliation with the A. F. of L. was for the purpose of mobilizing the working class of the Latin American countries to do the

bidding of American imperialism. In the face of the tightening war circle which threatens to involve the workers in another murderous war for the interests of the imperialists it is clear that the A. F. of L. officials will call the working class to give their lives to Wall Street, just as they are being made to sacrifice their standard of living during the present rank and file opposition movement in the A. F. of L. to arouse the workers against the jingoistic program of officialdom and unite them with the masses of workers in a struggle against imperialist war.

SOUTHERN NEGRO SOLDIERS COMING BACK IN 1918 REWARDED BY LYNCHING

Member of 349th Field Artillery, A. E. F.)

TODAY we have before us a classic example of how veterans who risked their lives in Wall Street's wars, are treated.

On the way to France the soldiers fared hard; poor food and lack of fresh water were the order of the day. Upon arrival, the men were thrown into immediate ac-tivity and were not allowed to recuperate. They were driven into labor camps and forced to work harder than they did in the United States. Men were rushed to the front, particularly the southern and Negro soldiers, before they were properly trained in elementary me-thods of protection from exposure, gas, machine gun fire, aeroplane bormbs, etc. Tens of thousands were sent to slaughter, particularly the rainbow regiments (mainly southern whites), the jim-crow Ne-gro regiments and those made up foreign-born workers who volunteered to serve in the United States armed forces. The sick records of those who were wounded in neglected, lost, destroyed and otherrice left in such a state that the grafting officials of the Veterans Bureau were able later to disqualify hundreds of thousands from receiv-

ing benefits. Thousands of soldiers, forced to storp car the ground, in mud and cold without warm clothing, forced to dril in cold and rain, eating hard tac's and denied proper me-Cleal attention, developed illness to the point where large numbers were unfit for oversea duty long before they sailed. I myself ran away from the base hospital at Camp Dix, rejoined the 349th Field Artillery and went to France with the United States at the end of the war. The Veterans Bareau officials in the employ of the government, while preferding to help the discoured the enactment of all kinds of red tape laws to chan;

them. In addition to being doublecrossed by the government. Negro and foreign-born veterans and backwoods southern white vets caught the real hell. Negroes were lynched with their uniforms on: an example of this at the present time is the holding of Willie Peterson, tubercular war veteran, in Alabama on a murder charge.

Misleaders Betray

Aided by the betrayal of the leaders of the American Legion, Veterans of Foreign Wars, etc., the National Economy League and American Veterans Association have ecured the enactment of the bill which gives Roosevelt dictatorial powers to slash millions off veterans' benefits in order that the bankers may continue to get their interest on government bonds. The non-service-connected cases, with the exception of 29,000 totally and permanently disabled, are completely cut off. As for the others, very veteran with a disability listed as service-connected will in addition to the 20 per cent cut in his benefit, have to undergo a rigid examination, and the government is preparing to drop large numbers of them entirely from the rolls. In fact, to some extent it has been doing this quietly right along, and during the past seven years 175,000 service-connected cases have been stricken off. From present indications, not the announced \$100,000 -000, but a much bigger sum will be robbed from the veterans, hundreds of thousands of whom are unem-

ployed and destitute. But the veterans are not going to fold their arms and tamely submit to this plunder. Members of the Workers Ex-Servicemen's League, American Legion, V. F. W., Disabled American Veterans, Khaki Shirts, B. E. F., etc., throughout the country are joining in united front action against the cuts. They are preparing to answer the call of the Veterans' National Liaison Com-mittee for march to Wash-

way to the working class, the World War brought vast wealth into the hands of the exploiters of almost every industry. We may take the big basic industry of iron and steel as an example of what the super profits of war-time did to the fortunes of the exploiting class. The following facts on this industry are taken from Horace Davis' forthcoming book in the Labor and In-dustry series of International Publishers. It is called Labor and Steel. Davis writes:

"The U. S. Steel Corporation's profits on its nominal 'investment' as it existed at the beginning of the war mounted to 21 per cent in 1916, 18 per in 1918, after payment of federal taxes. Ninety-one 'independent' steel companies studied by the Federal Trade Commission showed aggregate profits during 1915, equivalent to 9.4 per cent on the pre-war total balance-sheet value of stocks, bonds and surpluses.

And during these very years, when the steel capitalists were rolling up their millions, the real wages-or what they could buy with their money wages-of the workers in the iron and steel plants stood still. As Davis puts it, "For three years—the war years, which were so profitable to the companies -real earnings per capita remained stationary in spite of rising wage rates." (Our emphasis.)

The official report of the Inter-Church World Movement on the Steel Strike of 1919, covering conditions before the strike and during the war, admitted that "Nearly three-fourths of the steel workers couldn't earn enough for an American standard of living. The bulk of unskilled labor earned less than enough for the average family's minimum subsistence. The bulk of the semi-skilled labor earned less than enough for the average family's minimum comfort.'

These facts disprove the poison ous propaganda created by the imperialist hirelings that the workers received higher wages during the war. On the contrary, while millions of our class brothers were killed and maimed on the battle fields the "dollar a year" patriots were reaping in large profits.

While America occupies a leading position in war plans, it surpasses all in efforts to militarize the youth. Already this year Congress has appropriated approximately 700 million dollars for the Army, Navy, C. M. T. C. and R. O. T. C. The boss government spends these huge sums of money to militarize the very youth who are now ravished by hunger and are in dire need of bread.

Inspired by the Young Communist League, mass indignation was aroused against the Couzen's Bill for militarizing the homeless youth, and has led to its defeat in the House. However, although this is momentarily defeated, the government is manuevering to put across an even more vicious act, namely the Cutting's Bill. This calls for actual chain gang camps (without will be the order of the day. Here the youth will be trained for the next war and taught how to attack struggles of workers for bread.

These plans for militarizing broad sections of the working population has met with evident hos-tility from the working youth. Hundreds of resolutions protesting military camps have been passed by youth meetings and organizations throughout the country. These all approach the youth on the basis of fear and disgust of "all wars" and attempt to stifle any revolutionary struggles against boss war prepaations. By talk of the "uselessness of the American Army in case of war," and "refusal to bear arms, they attempt to convince the youth not to organize and struggle against imperialist war. Thus they are of objective assistance to the war plans of the boss class.

The Young Communist League under the leadership of the Communist Party, has just issued a call for united front action against fas-cism, hunger and war, to all working class organizations. This struggie to be begun immediately for calling a halt to the feverish plans for another world war. Especially this united front will prepare for the broadest mobilization of youth against imperialist war on National Youth Day, May 30. May 30, Memorial Day, like April 6, is also used to instill a war fever into the youth. This day has already become traditional through struggles of the Young Communist League in setting it aside as a special day of struggle against imperialist war and for the defense of the Soviet Union. Not only 250,000 "free" American workers will be militarized. Already such camps are in existence in many states now. Roosevelt has called a conference of governors and mayors for the purpose of extending the scheme over the entire country-to put millions of American workers into army camps in preparation for imperialist war. This is also Glassford's program for the homeless youth, to place them in military camps such as. are already being established in all parts of the country-California, Florida, New York.

ON NEGROES

Professor Haldane, of England, affirmed the fact that after suffering an attack of mustard gas enemy positions became uninhabitable for a long time. In order to capture these positions he proposed the use of native forces— Negroes. His theory is that certain sections of the populations have constitutions with "natural" resisting powers against the effect of gas. These comprise 20 per cent of the white population and 80 per cent of the Negro population. The Professor "discovered" that

since the Negroes were acclimatised to a hot sun, Yprite should be hamless to them. He proposes the organization of mass experiments upon Negroes, and that colored forces be used extensively in the next war for the occupation of poisoned positions. Thus solemnly declared this "civilised" professor "the supremacy of German industry will be balanced by French Negro regiments." In order to soothe his compatriots he expressed the hope that "Hindoos, no doubt are similarly capable of resistance to mus-

The betrayal by German Social-Democracy of the workingclass; its shameful acts during recent events; its support of Hindenburg for pres-ident last year, paving the road for present Hitler fascist regime, and its present surrender to this regime, dates back to its long history of betrayal. In reviewing these events it is sufficient to quote from its records in the beginning of the war. On August 5, 1914, the day following the declaration of war, these social patriots approving the action of their vote for war credits wrote in the "Arbeiter-Zeitung" (Workers' Gazette) of Vienna

"THE DAY OF THE GERMAN NATION'

'Man for man the German social democracy voted for the war credits. Together with the whole international social democracy, our German party, this jewel in the crown of the class conscious proletariat, is the most bitter opponent of war and the most pas-sionate supporter of the harmony and solidarity of the peoples and it has left nothing undone in its attempts to prevent this world war which is above all a war against the German character, in its atempts to ward off the terrible disaster which is threatening the whole world. It is no fault of the German social democracy when the German Reich and with it the whole European world is now feeling the scourge of war. But as the German Fatherland is in danger, as the national independence of the people is threatened, the German social democracy places itself protectingly before the home land, and the "men without a Fatherland, the red horde" as the Kaiser once reviled them, are now lending the State the strength and blood of the working masses... Never has a party acted more nobly or with more real grandeur than the German social democracy which has showed itself more than worthy of the terrible situation."

Liebknecht Speaks While the social democratic leaders were busy shouting their support of the Kaiser in Germany While the French and "socialist" leaders in every country were busy running to the defense of their capitalist government, the voice of the revolutionary leader broke through the thick fog of imperialist war hysteria—this was the voice of Karl Liebknecht.

Liebknecht ripped off the mask of "defense of the Fatherland" and in its stead raised the banner of the international unity of all toilers. He said:

"The German slogan: "Against Czarism!", like the present English and French slogan: "Against Mil-itarism!", pursued the purpose of mobilizing the noblest instincts the revolutionary traditions and aspirations of the people, in the service of national hatred. Germany, the accomplice of Czarism, and to this day a pattern of political backwardness, has no mission to act as a liberator of nations. The eration of the Russian people-like that of the German people-must come from within."

And continuing: " . . . against the social and political irresponsibility of which the Government and the ruling classes are today guilty, I vote against the war credits asked."
(From text of the proposed de-

claration which Liebknecht intended to pronounce on December 2 1914, to explain his refusal to vote the war credits).

On March 10, 1917, the American Peace Society announced that it recognized "with deep appreciation ward war and at the same time to protect the honor of the nation and the rights and lives of our citizens. HISTORY OF THE RED ARMY

By A. Alfred

On January 28, 1918, the Government of the Russian Socialist Federated Soviet Republics signed the decree for the establishment of the Red Army of workers and peasants.

The Red Army is not just one ordinary army among many. It is not a Russian "army." The which was built up in 1918 was fundamentally different from the armed forces of any of the capitalist countries. It was a Socialist army-a proletarian army-the army of a new ruling class-a genuine army of workers and peasants.

Civil wars are also wars. Those

who accept the class struggle must

accept civil wars, which, under cer-

tain circumstances, are a natural

and inevitable continuance, develop-ment and accentuation of the class

struggle in every society based on class divisions. . . To deny or to

overlook civil wars would mean be-coming a victim of the most hope-

less opportunism and abandoning the social revolution.

Lenin on War

was the overthrow of the bourgeoisie, the victory of the proletarian revolution and the assumption of power by the working class.

A real workers' and peasants' army is inconceivable within the frame-work of capitalist society. Only bourgeois armies can exist in capitalist lands. All armed forces, permitted by the capitalist ruling class, must be tools in the hands of bourgeoisie, whether they be official bodies or so-called "voluntary" military organizations.

CAPITALIST ARMIES

The fact that the overwhelming majority of the members of the

of the Revolutionary Military Council of the U. S. S. R., the Red Army's supreme leader, is a metal worker from Lugansk, an old mem-

well as of Fascist or Social-Fascist military organizations-come from the working class does not affect the argument. It is quite natural that the capitalists have no special inclination themselves to serve as cannon fodder and that they therefore prefer that workers and pea sants shall suffer and die for them As we know, the whole of capitalist society rests upon the exploitation and oppression of the masses in the interests of a small section of capitalists. Not only do they exploit the workers in industry and on the land, in order to secure the product of their labour; but this exploita tion is carried on to the battle-fields of imperialist warfare, which warfare arises solely through the greed of the capitalists and is vaged in their interests. The op pression of the masses through miltarism is one of the most despicable forms of capitalist rule. The Red Army is an army of pro

letarian revolution—a child of the victorious October Revolution. It was forged in the fires of the proletarian insurrection. The history of the origin of the Red Army cannot be separated from the history of the preparations for, and the accomplishment of, the October insurrection. This is not only because the Red Army is inspired by the same ideas as those for which the armed workers fought in the insurrection, but also because the core of the Red Army was formed of actual proletarians and peasants who actively took part in the uprising.

The letter, read into the record by Senator Hiram Johnson of California is taken from the Congressional Record, March 1, 1919, page

> Archangel, Russia, January 5, 1919.

My dear mother and father: If you receive this letter, it is entirely due to the kind-

ness of an American sailor, friend of mine, who has offered to mail it when arriving in the States. He leaves this land of chaos in a few days. I am not writing you this letter to cause you worry, but no doubt it will. I find that conditions are such here that everything possible must be done to improve them. The American forces in this section consist only of our Regiment, about 3.500 men. We are under British orders, which in my opinion, is a disgrace to the United States.

As I have explained in a previous letter, we were told that this expedition was only for the purpose of guarding American supplies and defeat the Huns, preventing Russia from becoming an Ally of the Central Powers. It has developed into an expedition of interference. We are now fighting the Ehlsheviks but this is not being done with the aid of the Russian people. They are all plotting and working against us, with the exception of the capitalists, who are solely soliciting the aids of the Allies. The Russian people consider the problem is for themselves to take care of and we have no right to murder any of these Russians.

The Russians that are enlisting in the British Army here obtain all the food and clothing they can possibly obtain and when they are taken to the front they go over to the Bolshevik side. Do you think we should fight here under such conditions?

We are all loyal Americans, true to the flag and country, and are ready to die for the cause at any time, but we believe that the U.S. is ignorant of conditions here. If conditions do not improve soon, I would not be surprised that you will address by letter, "private" again instead of ("sergeant" as I will be doing something here which will cause a demotion.

Strikers Jailed; Revolutionary Wave The League of Nations and War in the Far East

"I Saw It Myself"

WHOLESALE MURDER

By GABRIEL PERI (Paris)

On Friday morning the 24th February, the extraordinary meeting of the League of Nations unanimously adopted the Far-Eastern Report of the Committee of Nineteen. Only one member of the League, namely, Japan, answered with a No, and only one, namely, Siam, withheld its vote. Siam obviously did not wish to get into ill-favour with either of the contending parties. As, however, abstention from voting is regarded as the same as aband Japan being an interested party, its vote against the report is not taken into account, the Chairman, Hyman, declared the report of the Committee of Nineteen to be adopted unanimous-

Before the vote was taken, the representatives of China and Ja-pan once again defended their res-

The Chinese delegate, Yen, emphasized that the views of Nanking and the Geneva were in agreement on the following points: 1. Recognition of Manchuria as an inseparable part of China; 2. Recognition of the boycott measures against Japan as a retaliatory measure on the part of China; 3. Recognition of the fact that China declared itself ready to submit the Sino-Japanese question to arbitration, whilst Japan refused to submit the conflict arbitration; 4. Recognition of the fact that the events of November 18 and 19, 1931 were not an act of self-defence on the part of Ja-pan; 5. Non-recognition of Man-chukuo; 6. China is not responsible for the events in the Far East after 18th September 1931; 7. The eva-cuation of Manchuria by the Japanese troops is a technical question and not subject to any political conditions; 8. Co-operation of the two big Powers on the Pacific (United States of America and the Soviet Union) is valuable and desirable for the restoration of peace in the Far East.

JAPANESE IMPERIALIST

The Japanese representative, Matzuoka, repeated the following main thesis, which he had continually put forward in his earlier speeches: China is a big territory, but not a nation according to the western sense of the word. For twenty years a revolution has been proceeding in China. A catastrophe has occurred. Japan wishes to establish law and order. The League of Nations, on its part, is to blame for having supported the hopes of China and allowed it to offer further resistance to the attempts of Japan to restore order in China. Matszuoka then opposed the idea of international control envisaged in the Lytton Report, and emphasized that Japan would oppose any attempt to set up any kind of international control in Manchuria.

After the vote, which proved un-favorable for Japan, Matszuoka confined himself to declaring that the Japanese government had exhausted, or almost entirely ex-hausted, the possibilities of co-operating with the League of Nations in solving the Sino-Japanese conflict, but he did not say a word about it being impossible for Japan to remain in the League of

Matszuoka's only demonstration consisted in his leaving the hall, together with the whole Japanese delegation, three minutes before the conclusion of the sitting.

Japan's withdrawal from the League of Nations would be such an important event that one cannot neglect to deal with it. WAR IN

War in the Far East is developing at an accelerated pace. The object of this war is Jehol, the control of the big Asiatic-European railway lines at their terminal points, and the setting up in this area of a basis for military operation against Peiping.

was commenced in 1931 is being continued without the covering mantle of the League of Nations But up to February 24, the Japanese robber-war—this is an un-disputable fact—enjoyed the plain and obvious toleration of the Geneva institution. The fact is, every meeting of the

League Council has synchronised with a military operation on a grand scale in the Far East. The League of Nations met—when Mukden was being bombarded. It held a special meeting in October—when Manchuria was flooded with Jaship of Aristide Briand, the League Council met once again in November—when Tsitsihar fell into the hands of the Japanese. The month of March saw the opening of a new meeting—and at the same time Shanghai was bombarded. In September 1932 discussion was still going on in Geneva about Japan and

however, of very great importance. For—let there be no mistake about it—we have already entered on the period of a big war in the Pacific. The offensive in Jehol has commenced; fighting has already taken place. Japan has recently imported enormous quantities of war material and weapons, supplied by Vickers, Armstrong and Co. The Ja panese press reports that the Navy is being held in readiness and that enormous nationalist demonstrations in Tokio are demanding the continuation of the offensive.

In order to master the Japanese rival, President Roosevelt is advocating the setting up of an anti-Japanese united front. He has already discussed his project with representatives of the big Powers. LESSON TO WORKERS

February 24 has also another lesson for the workers. It has proved that the imperialist Powers observe and obey the "great principles" of the League of Nations only so long as these "great principles" serve their interests. If the League had forbidden Poland to seize the capital of Lithuania and Upper Silesia by force, if the League had raised its protest against the bombardment of Corfu by the Italian fleet, against the occupation of the Ruhi area by the French troops, against Great Britain's robber-campaign in Egypt and France's robber-campaign in Morocco and Syria, then Poland, Great Britain, France and Italy would long since have turned their backs on the League of Na-

lievers in the League of Nations. this episode must be regarded as a further confirmation of that criticism which the international Communist movement has for years levelled against the Geneva institution of the imperialist war-mongers. In addition, however, we must not forget that war is already raging and that another is approaching with terrible rapidity Never was it more urgent than now to rouse the vigilance of the work-

LIST OF AIRSHIP DISASTERS

By HOWARD CRAIG

NEW YORK, April 6 .- The denolition of the Akron, climaxes a long series of similar accidents that has caused the deaths of many young workers, and the futile destruction of millions of dollars, wantonly squandered by world-wide imperialism.

Of such major disasters in recent years, four have occurred to ships owned by the United States. The ZR2, constructed in England at a cost of \$2,000,000, crashed while still there in August, 1921. It carried 44 men with it to oblivion. The Roma costing \$1,250,000 went up in flames in Hampton Roads, February 1922, killing 34. The Shenandoah, which was wrecked in a storm over Ohio, September 1925, caused the deaths of 14. To build this ship American Imperialists extracted \$2,000,000 from the workers. Finally the Akron, largest of them all, which cost \$5,375,000 to build. exclusive of hangar costs, exacted the frightful toll of 75 lives, 73 being members of its crew, and 2 who were killed in a rescue attempt in which a navy blimp was demo-

Berlin Convalescent Homes for Workers' Children Turned Into Nazi Barracks

BERLIN, March 28 (By Mail) .- More stories of Nazi atrocities committed against the fighting leadership of the German working class continually come to hand. In Baden, 2,000 workers were arrested, and taken to concentration camps. At Heuberg, where the internment camp cannot hold all the prisoners, two more

In Berlin, the City Council, now in the hands of the Nazis, has closed down all convalescent homes for workers' children, and is going to use them as Nazi barracks.

NEW YORK .- A letter, written from Germany and published in the New "Republic", has the following passage: "At the end of the Friedrichstrasse is one of the storm troop barracks. For several days after the elections the neighbors and passersby heard the screams and moans of people inside, until at last demands were made that the regular police take action. The police broke into the place, and in the barracks they found seventy Communists, some dead, some nearly dead, and all badly

NAZIS AND BIG TIGHTER CONTROL

German capitalists today pledged support to the regime of their representative, Hitler. The Executive Committee of the Federation of German Industries, which includes the great industrial barons of Germany, met under the chairmanship of Krupp von Bohlen, and unanimously adopted a resolution "welcoming the decision" to reorganize the Federation, and "expressing readiness fully to support the labors" of the Hitler government. BERLIN, April 7.-Hitler's first statement on anti-semitism since he beme Chancellor was made yesterday in a speech to the German Federation of Medical Associations, from which Jews have been excluded. He confessed

himself a student of American methods. Defending the Nazi persecution of the Jews and attacking the right of Americans to take an attitude of moral indignation, Hitler said: "The states in America."

American people were the first to draw the practical political consequences from the inequality of races.

Through immigration laws America barred undesirables from other barred undesirables from other by the Nasis as a justification for their rule of oppression. Another example is the reply of a Nazi, head of the National Social-
